Jeyson Guzman Page

Frontend Developer with over 2 years of experience in **JavaScript** frameworks and macro frameworks, specializing in **React JS, Next JS, and Angular**. My focus is centered on code quality and a continuous commitment to learning.I am an expert in implementing efficient and optimized code architectures, achieving success rates of 60% to 70% according to specific requirements, utilizing **monorepo** approaches for smoother management. I possess a deep understanding of agile methodologies, particularly **SCRUM**, enabling timely and effective deliveries
